PROFESSIONAL SUMMARY

I'm a passionate Front-End Developer with hands-on experience in HTML, CSS, JavaScript, Bootstrap, and React. I enjoy building clean, responsive, and user-friendly web interfaces. I also have experience in data annotation work, which has helped me improve my attention to detail and data-handling skills. I'm always eager to learn new technologies and take on challenging projects to grow as a developer.

EDUCATION & TRAINING

MASS college of Arts & Science | Kumbakonam

Bachelor of Computer Application

JUN 2018 - APL 2021

- Developed a strong technical foundation in computer fundamentals and web development.
- Gained hands-on experience in programming languages and building responsive web applications.

Pumo Technovision | Coimbatore

MAY 2025 - Present

MERN FULL STACK Intern

- Completed Front-End Development and developed responsive web projects using HTML, CSS, JavaScript, and React.
 - Gaining practical experience through hands-on project work to strengthen UI design and functionality.
 - Currently learning backend and database technologies, focusing on Node.js, Express, and RESTful APIs.
 - Expanding knowledge of data handling, API integration, and full-stack development workflows.
 - Passionate about building efficient, user-friendly web applications and growing as a full-stack developer.
-

PROFESSIONAL EXPERIENCE

Up2datez | JUN 2022 - NOV 2023

Technical Associate

Accurately annotated and labeled diverse datasets according to project requirements. Adapted quickly to new data annotation guidelines and techniques. I have Collaborated with data scientists and project managers to meet annotation project goals.

Vista engg solution | NOV 2023 - JUN 2025

Process Associate

Performed accurate 2D bounding box annotations on a variety of image datasets, ensuring adherence to specific project guidelines. Conducted thorough quality checks on annotated data, accuracy above 95%. Quickly adapted to changes in annotation rules and updated project requirements

Apexon | JUL 2025 - SEP 2025

Analyst II

Performed detailed LiDAR data quality checks, verifying ground classification, building outlines, and vegetation layers for spatial accuracy and consistency. Documented QC observations and prepared daily and weekly quality reports, contributing to continuous improvement in LiDAR data validation processes.

TECHNICAL SKILLS

FRONT-END : HTML5, CSS3, BOOTSTRAP, JAVA SCRIPT, REACT.js

BACK-END : NODE.js

TOOLS : VSCODE, GitHub, GT STUDIO, SHAIP, KOGNIC

PROJECTS

PORTFOLIO | SEP 2025 - OCT 2025

Technologies : HTML, CSS, Bootstrap, JavaScript, React

Designed and developed a personal portfolio website to showcase front-end projects and technical skills. Built interactive web applications including a Calculator, To-Do List, and Stopwatch using React for dynamic functionality. Implemented responsive design and modern UI styling using SCSS to ensure maintainability and scalability of styles. Focused on delivering a clean, user-friendly, and fully responsive interface across all devices. Hosted the portfolio on GitHub, demonstrating version control, code management, and deployment skills.

CONTRIBUTIONS

Developed interactive web applications using React. Implemented state management and dynamic UI functionality. Used SCSS for modular and maintainable styling. Ensured cross-device responsiveness and user-friendly interface.

ACHIVEMENTS

Portfolio showcased to recruiters and peers, demonstrating front-end skills and project implementation.
